BinaryEdge focuses its efforts on acquiring, analyzing and classifying internet-wide data by combining efforts in the areas of Cybersecurity, Data Science and Machine Learning. We show Organizations what they are exposing and what they are being exposed to on the Internet.

Important: We are currently just hiring in Portugal.

Responsibilities
We help our users improve their security with easy-to-use applications and well-built interfaces, and we’re looking for talented front-end engineers to bring these experiences to life.

● Help improve the overall experience of our platform;
● You’ll work closely with the backend engineering team to integrate existing REST APIs;
● You’ll work with the product design team to iterate over wireframes and high-fidelity mockups, turning prototypes into polished products;
● Identify areas of improvements in the code base and help with contributions to make it better, faster and stronger, both client and server-side;
● Work independently as well as a team, Contribute to our remote culture.

Requirements
● Bachelor’s degree or equivalent;
● 4/5 Years experience;
● Solid understanding of CSS, HTML and Javascript.
● Experience working with a modern front-end frameworks like React and AngularJS.
● Basic knowledge on CSS preprocessors (eg SASS)
● Basic knowledge on package managers and build tools, like npm and webpack.
● Basic knowledge on testing with tools such as Mocha, Selenium or similar.
● Experience with REST APIs, both client and server-side.
● Awareness on browsers compatibility issues.
● Experience working with code versioning tools, such as Git.
● Good written and spoken English.

Bonus
● Experience building data visualizations with d3.js or a similar library;
● Working knowledge of Python, Go;
● Experience in any of the following frameworks: Django, Flask, Node.js.

Benefits
● Ability to work from anywhere - 100% remote team. You’re able to work from home or your favorite place.
● Flexible hours - this is not a typical 9-5 job. Despite our regular meetings, you have some flexibility in choosing your own schedule to work on. Inspiration comes at different times for different people.
● Join a young, vibrant, exciting team that is working on the future of cybersecurity.
